AUSTRALIAN INSTITUTE
OF HIGHER EDUCATION

Unit Code: BBUS1002

Unit Name: Foundations of Information Technology

Study Period: Winter Year 2025

Unit Outline

Subject Information

Term Dates	Winter: Monday, 14 July 2025 - Wednesday, 6 August 2025
Session Times	Group 1: Mon/Wed 8:30AM - 12:30PM
Awards	Bachelor of Business Information Systems Associate Degree of Business Information Systems Diploma of Business Information Systems
Prerequisites/ Corequisites	None
Delivery Method	Hybrid: Online and Face to face
Unit Description	BBUS1002 Foundations of Information Technology introduces students to the field of information technology. It provides both theoretical knowledge and practical application of basic aspects of information technology and their relevance to 21st century business operations. The unit starts on a global scale in the e-world of the Internet before visiting the micro-world of computer hardware, operating systems, and software tools for productivity, creativity, and information processing. The unit explores networking and communication systems before looking at database technology and the design and management of business information systems. The unit concludes with a discussion of current issues and trends in information technology. AI Clause: The use of AI should only be undertaken if an assessment clearly states that it is permitted. Penalties will apply if AI is used intentionally without permission.

Subject Information (cont'd)

Learning Outcomes and Graduate Attributesw	On successful completion, students will have achieved the following learning outcomes:	
	Unit Learning Outcomes	**AIH Graduate Attributes**
	1. Describe the role of information technology in the workplace and in personal use.	2. Knowledge 6. Lifelong Learning
	2. Demonstrate a knowledge of spreadsheets, word processing, databases, web browser technology and web authorizing systems.	2. Knowledge 3. Creativity & Critical Thinking 4. Ethical Practice
	3. Explain the general principles of computer networking, communications, and database technology.	2. Knowledge 3. Creativity & Critical Thinking
	4. Discuss various business information systems.	1. Communication & Teamwork 2. Knowledge 3. Creativity & Critical Thinking 4. Ethical Practice
	5. Demonstrate understanding of the process of business information system development; including problem identification, analysis, design, implementation, and testing.	1. Communication & Teamwork 2. Knowledge 3. Creativity & Critical Thinking 4. Ethical Practice

Weekly Workshop Schedule

Week	Week Starting	Session Reading Materials	Workshop Activities	Assessment Task Due
Week 1	Session 1	Introduction to Information Technology	Portfolio (H5P & Foundation Adoption Analysis)	A1 In class portfolio activities (5%)
	Session 2	Hardware – The CPU & Storage and Input & Output	Portfolio (H5P & Work Mileage Analysis)	A1 In class portfolio activities (5%)
Week 2	Session 3	Privacy, Security, and Ethics	Portfolio (H5P & Charts Development)	A1 In class portfolio activities (5%)
	Session 4	Information Systems - Tools for Creativity & Productivity	Portfolio (H5P & Create a Flayer & Sales Analysis development)	A1 In class portfolio activities (5%)
Week 3	Session 5	The Internet & The World Wide Web Files & Databases	Portfolio (H5P & Setup LibreOffice & Database Development)	A1 In class portfolio activities (5%)
	Session 6	Emerging Trends: Big Data, Information Systems, Artificial Intelligence and others.	Portfolio (H5P & Web Authoring Development)	A1 In class portfolio activities (5%)
Week 4	Session 7	Networks & Wired and Wireless Media	Assessment 2 Moodle Quiz (30%)	A2 - Quiz (30%)
	Session 8	Systems Development, Programming Languages &Theory of Systems	Assessment 3 (Report 25% + Presentation 15%)	A3 - Group Report & Presentation (40%) - (Report 25% + Presentation 15%)

Assessment Details

Assessment Number & Type	Assessment Description	Week/ Session Assessed & Due Date	Weighting	Learning Outcomes Assessed	Submission Requirements
A1 Portfolio Individual	In-Class Assessment: This assessment will gauge the students' participation and learning of the content via class activities including real time quizzes and practical activities.	Sessions 1-6	30%	1, 2, 3, 4 & 5	In Class 2 hours
A2 Quiz Individual	Multiple Choice Quiz developed to ensure that students engage with the content on a continuous basis. This will help to make sure students are familiar with the material presented and discussed each week.	Session 7	30%	1	In Class 1 hour
A3 Report Group Work	Students are going to create a Report. Students must to demonstrate their understanding of key concepts of the unit. Topics include pervasive nature of IT, developments in hardware/software, Big Data, Data Analytics, Software Development, etc.	Session 8	25% Report	1, 2, 4 & 5	Moodle 3000 words Turnitin
A3 Presentation Group Work	Students must create a prerecord video of assigned topic covered in the Report. Students must demonstrate their understanding of key concepts of the unit. Topics include pervasive nature of IT, developments in hardware/software, Big Data, Data Analytics, Software Development, etc.	Session 8	15% Presentation	1, 2, 4 & 5	In Class 10 minutes

NOTE: Pass requirements

Students must make a reasonable attempt in their assessment events in order to be eligible to pass the subject and must achieve a combined result from these assessment events of at least 50% to pass the subject.

If a student fails any individual piece of assessment they will be eligible to continue in the subject and attain a pass in the subject, provided their combined result from all assessment events in the subject is 50% or above.

You can view details on your assessments at Moodle in the Assessment Brief and in-class instruction.

Overall Grade Assessment

Grade	Marking Criteria/Standards
High Distinction (outstanding performance) Code: HD Mark range: 85% and above	Complete and comprehensive understanding of the unit content; development of relevant skills to an outstanding level; demonstration of an extremely high level of interpretive and analytical ability and intellectual initiative; and excellent achievement of all major and minor objectives of the unit.
Distinction (very high level of performance) Code: D Mark range: 75-84%	Very high level of understanding of the unit content; development of relevant skills to a very high level; demonstration of a very high level of interpretive and analytical ability and intellectual initiative; and comprehensive achievement of all major and minor objectives of the unit.
Credit (high level of performance) Code: C Mark range: 65-74%	High level of understanding of the unit content; development of relevant skills to a high level; demonstration of a high level of interpretive and analytical ability and achievement of all major objectives of the unit; some minor objectives not fully achieved.
Pass (competent level of performance) Code: P Mark range: 50-64%	Adequate understanding of most of the basic unit content; development of relevant skills to a satisfactory level; adequate interpretive and analytical ability and achievement of all major objectives of the unit; some minor objectives not achieved.
Non-graded Pass Code: NGP	Successful completion of a unit assessed on a pass/fail basis, indicating satisfactory understanding of unit content; satisfactory development of relevant skills; satisfactory interpretive and analytical ability and achievement in all major objectives of the unit.
Fail - unsatisfactory performance Code: F Mark range: below 50%	Inadequate understanding of the basic unit content; failure to develop relevant skills; insufficient evidence of interpretive and analytical ability; and failure to achieve some or all major and minor objectives of the unit.
Fail - no assessment submitted Code: FNS	Did not present any work for assessment, to be considered as failed.
Grade Pending Code: GP	A final grade is yet to be awarded for the unit as students have not yet completed all the assessment tasks and special consideration has been approved due to medical grounds or exceptional circumstances beyond the control. This is a temporary grade only and must be finalised before the end of the following semester.
Supplementary Exam Code: SX	A final grade is yet to be awarded for the unit as a supplementary exam has been approved for students who have failed the unit and obtained total mark between (46-49%), provided the student has completed all other assessment units. This is a temporary grade only and must be finalised before the end of the following semester.
Withdraw with Failure Code: WF	Cancelled enrolment in the unit after the final date for withdrawal without failure. Cancelled enrolment in the unit due to non-payment of fees.
Withdraw Without Failure Code: AW	Cancelled enrolment in the unit before the final date for withdrawal without failure. This grade may also be awarded to students who withdraw from a unit after the withdrawal date under special or compassionate circumstances. In these cases, the grade is awarded at the discretion of the Teaching and Learning Committee. A unit with the grade of AW does not appear on a student's academic transcript.
Advanced Standing Code: AS	Credit has been granted for the unit of study following an application and its approval for Advanced Standing

Policies & Forms

All students should be familiar with the relevant policies and how they apply to their study. Policies and forms can be accessed on the Australian Institute of Higher Education website at: www.aih.nsw.edu.au

ACCESS AND EQUITY

The Australian Institute of Higher Education is committed to providing equal opportunity and promoting inclusive practices and processes for all students and clients within the limits of its resources.

SPECIAL CONSIDERATION

You may seek Special Consideration in the evaluation of your subject assessments where you feel such matters as serious illness, or other exceptional circumstances beyond your control that may have affected your performance. A Special Consideration form must be submitted within 3 days of the assessment due date or event. Please contact Student Services (studentservices@aih.nsw.edu.au) for a copy of the application form (https://aih.nsw.edu.au/about-us/policies-procedures/).

ATTENDANCE POLICY

The Australian Institute of Higher Education emphasizes the need for all students to attend classes on a regular and consistent basis to develop the skills and attitudes necessary to compete in the highly competitive labor market. Students who are not in attendance for at least 50 percent of any scheduled class will be considered absent for that class. Lateness is a disruption of a good learning environment and is discouraged.

ACADEMIC INTEGRITY

The Australian Institute of Higher Education considers academic honesty to be one of its highest values. Students are expected to be the sole authors of their work (except in the case of group assignments). Use of another person's work or ideas must be accompanied by specific citations and references. The Australian Institute of Higher Education subscribes to a third-party plagiarism detection service, and reserves the right to check all student work to verify that it meets the guidelines of this policy. Academic dishonesty is a serious offense and may result in a range of penalties. Procedures for processing plagiarism, contract cheating and exam cheating offenses are described in the Academic Misconduct Policy and Procedure (https://aih.nsw.edu.au/about-us/policies-procedures/).

ACADEMIC APPEALS

The Student Grievance Handling and Resolution Policy and Procedure policy outlines the process for a fair, equitable and confidential means of resolving complaints and appealing academic decisions (https://aih.nsw.edu.au/about-us/policies-procedures/).

REVIEW OF ASSESSMENT

Where a student believes their assessment instrument has been marked incorrectly, they may apply to have that assessment instrument re-marked once only. Requests must be made within five (5) days of results being released. The Student Assessment Policy and Procedure provides instructions on requesting re-marks (https://aih.nsw.edu.au/about-us/policies-procedures/).

LATE POLICY

An assessment item submitted after the assessment due date, without an approved extension or without approved mitigating circumstance, will suffer a late submission penalty. The late submission penalty is a reduction of the mark allocated for the assessment item by 5% per day (or part thereof) of the total marks available for the assessment item as indicated in the Unit Outline. **A "day" for this purpose is defined as any day of the week including weekends**. Assignments submitted later than one (1) week after the due date will not be accepted (https://aih.nsw.edu.au/about-us/policies-procedures/).
